

B² 13. (Amended) The method of claim 7 wherein the antigen is purified.

B³ 17. (Amended) The method of claim 1 wherein the immunogen is expressed on an antigen-presenting cell that is not native to the mammal.

20. (Amended) The method of claim 1 wherein the molecule that induces angiogenesis is FLK-1.

B⁴ 21. (Amended) The method of claim 1 wherein the molecule that induces angiogenesis is KDR.

22. (Amended) The method of claim 1 wherein the molecule that induces angiogenesis is FLT-1.

B⁵ 23. (Amended) The method of claim 1 wherein the molecule that induces angiogenesis is VEGF.

B⁶ 56. (Amended) A method of inhibiting an unwanted angiogenic condition in a mammal in need thereof comprising administering to the mammal an effective amount of a vector that expresses an immunogen that causes an immune response against a molecule that induces angiogenesis in the mammal.
